Amendment to order

Sorry for the short notice. The client came to see us this morning. They found a gemstone that belonged to their family for many years. It is pear shaped, about 8 x 10 mm. The stone is important to them, and they have asked for it to be used in the piece. They have specified the minimum number of claws to be 3 with a maximum no greater than 5.

I know you are already working on your design. This is difficult timing, but the stone must be included. We have already promised the client this will happen.

The stone is on your bench. Please decide where it will go in your design.
